25M in Length

16 Rolls per Sleeve

192 Rolls per Case

SPECS

Fleece tape for flexibility and noise damping

Interior harness tape used to wrap wiring in an OEM matching fashion.

It combines important features as noise dampening, abrasion resistance, and bundling strength while keeping harnesses flexible supporting an easy harness assembly process.

FEATURES

Noise dampening

Abrasion resistant

Flexible and smooth

Tear resistant

Strong adhesion

Hand-tearable

Age-resistant

ORDER

Available in:

19mm and 9mm widths

Each roll is 25m of material.

19mm width comes with 8 rolls per sleeve

9mm width comes with 16 rolls per sleeve

Price is per 1 sleeve

EXTERIOR HARNESS WRAP

MODEL: 52879-19 / 52879-9

52879-19

19MM

25M in Length

8 Rolls per Sleeve

96 Rolls per Case

52879-9

9MM

25M in Length

16 Rolls per Sleeve

192 Rolls per Case

SPECS

Exterior harness tape used to wrap wiring in an OEM matching fashion. Features high abrasion protection and high temperature resistance of up to 302 degrees. Mainly used on exterior parts of the vehicle, including bumpers and engine bay.

FEATURES

- High abrasion resistance
- High temperature resistance
- Age-resistant
- Flame-retardant
- Tear-resistant
- Flexible and smooth

ORDER

Available in:
19mm and 9mm widths
Each roll is 25m of material.
19mm width comes with 8 rolls per sleeve
9mm width comes with 16 rolls per sleeve
Price is per 1 sleeve

DOUBLE SIDED THIN ACRYLIC

MODEL: 52915-9 / 52915-12 / 52915-19 / 52915-25

52915-9

9MM X 25MM
48 per Case

52915-12

12MM X 55MM
36 per Case

52915-19

19MM X 55MM
24 per Case

52915-25

25MM X 55MM
18 per Case

SPECS

Double-sided tape with high shear and temperature resistance.

Suitability for most demanding applications such as heavy stress, high temperatures or critical substrates.

Can be used for interior or exterior use.

Extra wide rolls available.

FEATURES

Suitable for heavy stress and high temperatures

Immediate use right after assembly.

Ideal for backing materials in the laser machine for a peel-and-stick application.

Self adhesive mounting for rubber.

Very thin material for zero gap in-between parts taped together.

ORDER

Available in:

9mm widths
12mm widths
19mm widths
25mm widths

Special order:

6 mm widths
50 mm widths
100 mm widths
150mm widths
250mm widths

HIGH BOND DOUBLE SIDED

MODEL: 120283-12 / 120283-19

120283-12

12MM X 36YDS
16 per Case

120283-19

19MM X 36YDS
16 per Case

SPECS

Double-sided black acrylic foam adhesive tape. This tape has incredible strong holding power. Can be used on the interior or exterior of a vehicle.

Can be used for interior and exterior use.

FEATURES

Great for attaching car body moldings. Fast and easy-to-use permanent bonding method provides high strength and long term durability

Can replace mechanical fasteners such as rivets, welding, and screws.

UV and temperature stable.

Tape can withstand the heat of Miami to the cold of Canada.

ORDER

Available in:

12mm widths

19mm widths

PAINT PROTECTION TAPE

MODEL: 111055-4 / 111055-9 / 111055-14

111055-9

4 Inch x 220 YDS
16 per Case

111055-9

9 Inch x 220 YDS
8 per Case

111055-14

14 Inch x 220 YDS
4 per Case

SPECS

Temporary protection tape for freshly painted car-bodies. Applied after the painting process, JK Tapes paint protection provides reliable protection for painted surfaces susceptible to damage.

Due to the good UV-resistance and perfect paint compatibility, it is the most reliable way to protect cars during the transportation process.

FEATURES

Designed to reduce environmental impact while protecting automotive finishes & components during storage and transit.

UV Stable

One piece removal leaves surfaces clean and stain free.

FEATURES

Easily removable, even after extended periods of time.

Stays in place on contoured surfaces.

No edge lift after applied.

Environmentally responsible - Offering reduced landfill life with no special disposal requirements.

ORDER

Available in:

4 Inch Width

9 Inch Width

14 Inch Width

INTERIOR PANEL PROTECTION

MODEL: 111386

111386

9.5 Inch x 72YDS
2 per Case

SPECS

Surface protection and masking tape. A self-adhesive polyethylene tape with an acrylic adhesive for masking large areas of plastic parts during professional painting processes. The color of the tape provides a good contrast to dark surfaces making for easier and faster positioning. Furthermore is an interior protection tape for slightly structured surfaces.

FEATURES

Adaptable for use on surfaces like PP, ABS, and textile.

Green translucent film which makes for making patterns for sound damping applications and more.

Environmentally responsible - Offering reduced landfill life with no special disposal requirements.

FEATURES

Great for replacing masking tape for fiber glassing applications.

Used for masking large areas of plastic parts during professional automotive painting processes.

Protection for various surfaces in the automotive interiors made of plastic or textiles against dirt and damage during storage, assembly, and transportation.

ORDER

Available in:
9.5 Inch x 72 Yards
Per Roll
